

POLARA

ELECTRIC VEHICLE FLEET CHARGING
INFRASTRUCTURE SPECIALIST

About us

From design to implementation: Simplified fleet electrification. We design, supply, and build sites for fleet applications.

Our vision is a world where electric vehicle charging infrastructure is ubiquitous and accessible, regardless of location or fleet size.

+100

Charging projects in Canada and the United States

+1,000

Vehicles connected to our infrastructure

45,000

Tons of CO² emissions avoided

Why Polara?

Infrastructure is essential to support your electric vehicle fleet.

This is where our company comes in.

At Polara, we offer innovative and efficient charging solutions while actively supporting our clients in their energy transition.

Collaboration

Our strength lies in our authentic collaboration. By valuing the diversity of talents and perspectives, we form a strong and united team. Together, we push the boundaries of innovation, turning challenges into opportunities and creating a collaborative culture where everyone contributes to our shared success.

Determination

Driven by an unwavering determination that pushes us to overcome obstacles, persevere in tough times, and stay focused on our pursuit of success. We are committed to evolving, innovating, and constantly pushing our limits to reach ever-higher levels of excellence.

Engagement

Customer satisfaction is our driving force. By placing the customer at the heart of our concerns, we demonstrate unwavering dedication. We strive to understand and anticipate their needs, in order to create seamless, customer-centric experiences.

Pleasure

Pleasure is our fuel. We believe that enjoyment is essential to motivate our team and deliver innovative, high-quality charging solutions. We take pride in our culture of fun and are confident that it is reflected in our work and our commitment to our clients.

Comprehensive solution

Let us take care of the process!

Analysys

- Current fleet size and routes
- Electrical power requirements
- Electrical engineering
- Site layout design
- Financing options

Execution

- Government funding application
- Equipment integration
- On-site project management
- Commissioning and startup
- Software and dashboard

Services

- Energy management
- Telemetry integration
- Technical support
- Spare parts

Chargers + vehicles

Fleet/energy management
and telematics

Modular. Flexible. Scalable.

To effectively manage fleet charging, energy management infrastructure is essential. That's why we created the Polara CHRGPK™, designed to address the challenges of the transition to electric mobility.

The CHRGPK™ anticipates future electric vehicle charging needs, offering a modular solution that adapts to the growing demand for sustainable mobility. Whether you're managing an electric fleet or planning to electrify one, the CHRGPK™ is the ideal infrastructure.

97% energy efficiency

Optimize energy transfer while reducing your electricity bill.

60% space reduction

Maximize your space with the smallest solution on the market.

Modular design with high scalability potential

Simplify the upgrade of your infrastructure as your needs evolve.

Simple maintenance

Centralize your fleet's charging in one location.

Financing available

Finance 100% of your project with Polara Capital.

Additional services

Long-term support

- Supervision and commissioning
- Support
- Training
- Monitoring
- Maintenance
- Data management

Dashboard and tools

- Power management
- Dashboard control
- Fleet management
- Scheduling management
- Telematics integration
- Private charging network
- Integrated billing module

Polara Capital

Tailored financial support for sustainable mobility.

The transition to electric fleets can be hindered by initial costs. Polara Capital offers an accessible financing solution to eliminate this barrier.

Our program is tailored to fleet electrification projects and enables projects benefiting from grants to move forward quickly. We seek the most advantageous grants and tax credits to maximize the profitability of your initiative, and our experts assist you in implementing them.

The benefits of financing with Polara Capital

Maximized financing

Simplicity of the process

Expert support from industry professionals

Tailored financing options

Compatible with government grant programs

Accessible from anywhere in the world
